

New York City knows that open space is crucial to the quality of life...and has preserved the 843 acres of Central Park for over 150 years.

The Reston community has relied on its open spaces for over 50 years. Now, our open space and quality of life are in jeopardy.

SAVE RESTON NATIONAL

But in Reston, Virginia, nationally acclaimed as one of the best places to live in America, Wisconsin-based Northwestern Mutual seeks to pave over our open space and diminish our quality of life. This out-of-town corporation—owner of Reston National Golf Course—believes that the legacy of the Reston Master Plan should be replaced by their Carpetbagger Plan: Capital Gain Trumps Community Life. To stop this profit-and-run scheme, your help is desperately needed.

This is OUR TOWN. The Reston Master Plan was crafted 50 years ago to create our dynamic culture and establish a nationally recognized vibrant community. Reston is known for smart development in planned and appropriate locations. It is our responsibility to keep it that way.

Save the golf course...attend the BZA Hearing on January 21. Go to rescuereston.org for details.
